Full-stack engineer with 4+ years of experience building production SaaS products from idea to deployment. I enjoy designing reliable backend systems, polished user experiences, and scalable cloud infrastructure while working closely with founders and small teams.

Experience

Freelance Software Engineer - *2025 - Present*

- Collaborated directly with startup founders on architecture decisions and product strategy.
- Managed end-to-end product development, deployment, infrastructure, and post-launch support.
- Designed backend architectures, REST APIs, authentication, payment integrations, media processing workflows and cloud infrastructure.

Notable Projects

Anony Media Platform - *SvelteKit, Elysia, PostgreSQL, Supabase, Bunny CDN*

- Built a subscription-based content platform featuring authentication, subscriptions, moderation tools, media uploads, and CDN-backed delivery.
- Operated and maintained production infrastructure serving 10,000+ users.

TapTab - *Next.js, PostgreSQL*

- Built a full-stack management platform for student housing, including finance tracking, dinner scheduling, inventory management, and internal administration.

Emergente Labs | Portugal (Remote) - *Full-stack Developer - 2024 – 2025*

- Redesigned and optimized dashboard, store layouts, and checkout page, enhancing user experience and performance.
- Developed modular Liquid templates that enabled merchants to customize storefronts without writing code.

Designare Studios | Mumbai - *Web Developer - 2022 – 2024*

- Developed responsive websites and custom web applications for clients across multiple industries.
- Converted UI/UX designs into production-ready applications using modern frontend technologies.
- Managed deployments, CI/CD workflows, and server configurations for client projects.

Notable Project

Lyfsum - Developed core features for a healthcare marketplace enabling appointment booking, provider discovery, and patient management.

Technical Skills

Languages: *JavaScript, TypeScript, Go, SQL, HTML5, CSS3*
Frontend: *React, Next.js, SvelteKit, Tailwind CSS, Framer Motion, GSAP*
Backend: *Node.js, Express.js, REST APIs, OAuth 2.0, JWT, Serverless APIs (Next.js)*
Databases: *PostgreSQL, Supabase, Prisma ORM*
Cloud & DevOps: *Linux, Docker, Git, GitHub Actions (CI/CD), Nginx, PM2, Vercel, Netlify, Cloudflare, Bunny CDN*
Tools: *GitHub, Postman, Figma, Photoshop, Illustrator (Vector Graphics)*

Education

Bachelor of Technology in Computer Science
Rungta College of Engineering & Technology - 2022
